HYDROSTATICS & HYDRAULICS PROGRAM

REMANUFACTURED EXCHANGE PROGRAM:

Hydratec maintains an inventory of **Sundstrans, Eaton, Dynapower, Denison, Vickers, Caterpillar and Rexroth** heavy duty hydraulic pumps and motors for most standard applications. To order an exchange unit call 1-800-540-1415. Give us your model numbers and we will process the order immediately. **Every exchange unit is fully tested and carries a manufacturers' warranty from the date of installation.**

REMANUFACTURING PROGRAM:

Hydratec maintains a facility capable of rebuilding and testing other mobile and industrial hydraulic components including **Commercial Intertech, Komatsu, Rexroth/Hydromatik, Staffa, Poclair, Linde, Volvo** and others. Please send these units in freight prepaid and you will be called with the exact rebuild price. **Every unit approved for repair is warranted from the date of installation.** Before shipping units for quotation please remove all fittings, couplings, yokes, control arms, etc.

WE ALSO SPECIALIZE IN:

New units

These can often be on the way to you before your equipment is down and the defective unit is removed.

Parts

New and remanufactured parts are available for those who repair their own pumps and motors.

Core Purchases

We want to buy old units named in the exchange program. We are also interested in new surplus on some other brands.

WE DO IT RIGHT THE FIRST TIME!

All of our staff participate in an on-going educational program and many have been certified by the **FLUID POWER SOCIETY**.

These certifications include:

Fluid Power Instructor
Fluid Power Specialist
Fluid Power Hydraulic Technician
